

We are expanding our team with several positions and are looking for an Ethical Hacker (m/f/d)

www.mbcsecurity.com

MBC Cybersecurity offers customized software, services, consulting, and training in the areas of IT security and data protection. Founded in the environment of the renowned CISA Helmholtz Centre for Information Security, MBC Cybersecurity is a pioneer of future-oriented technology and a holistic security partner for companies. Innovation is inseparably linked to our corporate culture. Our claim is to offer state-of-the-art solutions for the most difficult cyber security problems in the real economy. The way we work within the agile Scrum team is characterized by a lively exchange of ideas and continuous peer reviews.

For the further expansion of our company, we are looking for an Ethical Hacker as soon as possible.

As part of our cyber security team, you will ensure that our customers and their information and IT are comprehensively protected. You will be involved in exciting projects in the areas of technical, organisational and personnel cyber and IT security, data protection and hazard prevention.

Your tasks:

- Attack and penetration testing e.g. in the areas of (web) application, mobile, server, databases, infrastructure
- Red/Blue team assessments
- System/database audits
- Source code reviews
- Information security and cyber security organization

Your profile:

- Completed studies in the field of (business) computer science ideally with a focus on IT security or completed studies in the field of mathematics or physics with a strong affinity for cyber
- Prior knowledge in the areas of penetration testing, software development, operating systems, databases or networks is an advantage
- Programming experience as a foundation together with ethical hacking (pen testing, red teaming experience, OSINT (=Open Source Intelligence experience))

- Project management experience
- Very good analytical thinking and communication skills
- Committed team player with high sense of responsibility and good self-reflection
- Very good communication skills in German and English

What we offer:

- An innovative and future-oriented working environment through diverse topics
- Individual, personal, and professional development
- An attractive salary
- Regulated onboarding process
- Flexible working hours and home office
- Short communication channels and a helpful, cooperative, and dynamic team

Do you have a comprehensive and excellent specialist knowledge as well as many years of experience and are you interested in becoming a member of a young dynamic team? Then we look forward to receiving your application.
