

We are expanding our team with several positions and are looking for a System Administrator

(m/f/d)

www.mbcsecurity.com

MBC Cybersecurity offers customized software, services, consulting, and training in the areas of IT security and data protection. Founded in the environment of the renowned CISP Helmholtz Centre for Information Security, MBC Cybersecurity is a pioneer of future-oriented technology and a holistic security partner for companies. Innovation is inseparably linked to our corporate culture. Our claim is to offer state-of-the-art solutions for the most difficult cyber security problems in the real economy. The way we work within the agile Scrum team is characterized by a lively exchange of ideas and continuous peer reviews.

Do you have a passion for cybersecurity and data protection?

We are looking for colleagues to take on the role of a system administrator in our company with a focus on cyber security. As a System Administrator, you will work on the design and operation of our internal infrastructure. You will be part of an agile culture that tackles the pressing cybersecurity issues of today's digital world.

What makes you stand out:

- University degree in computer science or related fields/ IT specialist training or comparable/ several years of professional experience as a system administrator.
- Sound experience in the conception and operation of fast-growing infrastructures
- Knowledge of and/or willingness to learn about IT security and data protection
- Good knowledge of German and English, both written and spoken
- Experience in several of the following areas is advantageous: administration of Windows- as well as Linux-based desktop and server systems, network administration, virtualisation, storage and backup strategies, directory services/user administration
- If personally interested, knowledge in the areas of CI/CD and DevOps is also advantageous.

What we offer:

- An innovative and future-oriented working environment through diverse topics
- Individual, personal, and professional development
- An attractive salary

- Regulated onboarding process
- Flexible working hours and home office
- Short communication channels and a helpful, cooperative, and dynamic team

Do you have a comprehensive and excellent specialist knowledge as well as many years of experience and are you interested in becoming a member of a young dynamic team? Then we look forward to receiving your application.
